

Title I Parent Resources

Our media center houses a Parent Resource Center full of resources, purchased with Title I funds, for parents to checkout. Parents are strongly encouraged to share addition items you would like to see included in our Resource Library. Contact administration with suggestions. In addition, Pea Ridge Elementary will offer opportunities for parent involvement throughout the school year in conjunction with PTA meetings. Please visit our school website for links to additional parent resource opportunities.

These services and supports have included: UWF tutors, funding for an Academic Intervention Specialist, purchases of materials and classroom curriculum, leveled readers, stipends for before and after school tutoring, document cameras with projectors, computer software, and computer hardware. Title I places an emphasis on targeting students with academic needs and focuses resources in areas where students receive the most benefit.

In addition, Title I supports parent training and education. We continue to look for ways to meet parent needs and keep parents informed about the curriculum and education of our students. We encourage you to share your ideas with us so our school can partner with you. All parents are encouraged to attend monthly School Advisory Council meetings to express your ideas and/or concerns.
